## PASSION AND EXPERTISE

Our guides and other guest support staff are what makes us different from all other tour operators. Read some of our reviews. You will observe that all our guests rave about the quality and passion of the Easy Tours team members that they dealt with. No other agency's reviews will rival these repeated accolades.

Easy Tours nurtures a culture geared towards one solitary goal. Our mission is to provide our guests with the best travel experience possible. Keeping this in mind, what we value more than anything is what our guests value most – their time. We design and orchestrate everything to give you the most for your time.

Whether it is the knowledgeable guide who introduces you to an amazing culture, or the expert United States based specialist who assists you in selecting destinations or the tour that you will take, all our team members are passionate about making your time with us the best travel experience you will ever have. We may not always succeed, but it is never due to a lack of effort or passion.

# TOUR LEVELS

## UPSCALE AND LUXURY LEVEL TOURS

We offer a diverse selection of Small Group Tours and a larger selection of Private Tours. There are two levels of travel, Upscale and Luxury, available on all our private travel packages. Our small group tours are offered at both levels on the Indian subcontinent, and at our Upscale Level in Southeast Asia.

The travel itineraries and associated experiences are the same at both levels; the difference is in the hotels and resorts. Luxury and Upscale Level small group tours, when both are offered, operate independently of each other.

Compare the lodging we offer with any other reputable tour operator. Not only are our hotels the highest rated, our tours are far better values when you consider the hotels and resorts where you will stay. This is in line with our philosophy of only using the finest, most articulate, and passionate guides for our guests. A quick peek at our guest reviews will illustrate how our guests wax poetic about their guides.

We have established relationships with our hotels and resorts. This allows us to provide you with superior availability and good values. We continuously maintain an intimate knowledge of the best establishments at all of the destinations we offer. Facilities and management do change over time, along with service levels. Our local presence, insight, and contacts enable us to stay abreast of these changes.

## Luxury Hotels

Our Luxury Level Hotels are some of the finest on the planet, and in cities where that level of lodging is not available, you will stay in upgraded rooms and suites in that city's best hotel. Many travelers are unaware that there are more top rated luxury hotels in India and Southeast Asia than all of the America's combined.

Some examples of these are the amazing Oberoi Villas Resorts, and the spectacular Taj Grand Palaces, in India; the 137 Pillars House in Chiang Mai, Thailand; the Four Seasons Nam Hai Resort in HoiAn, Vietnam; and the Governor's Residence in Yangon, Myanmar. You will be amazed by the luxuriousness of the hotels and the extreme level of personalized service. For a complete list of the lodging we use, please visit our website.

We have established relationships with these hotels and resorts. This allows us to provide you with superior availability and good values. These hotels have the finest spas in the cities that they are located, and most of them offer a choice between ancient organic therapies, and modern western treatments.

# Upscale Hotels

How can you tell when your tour operator is not an upscale or luxury agency? Answer - when they mention the words '5 star hotels'. In Asia, the same city can have a 5 star (a comfortable business hotel located in a commercial area, far from everything) that costs \$70 a night, to another 5 star hotel that costs \$1500 a night, and is one of the finest hotels on the planet.

A star rating in Asia has very little to do with the quality of the hotel. It is achieved by factors such as the minimum number of rooms, a large swimming pool, two food outlets, in-room dining availability, and so on. A 5 star rating is the highest official rating there is.

Our Upscale Level hotels are far superior to what most tour operators use. They include heritage mansions, historic hotels, upscale palaces, and boutique resorts. A quick look at any of the major hotel review sites will show that our Upscale Level hotels are in the top 5% at each destination.

We have established relationships with these hotels and resorts. This allows us to provide you superior availability and good values. The level of service you experience will amaze you. We have thousands of past guests that are willing to vouch for this fact.

# TRAVEL

## Travel During Your Tour

Easy Tours' philosophy of valuing our guests' time is best manifested in how we approach travel between destinations during your time with us. We look for the most convenient and fastest way to get from one place to another, which is often a flight on quality airlines for long journeys, or road travel for shorter distances.

This philosophy changes when an alternative journey includes unique cultural experiences, archeological wonders, amazing scenery, or a combination of these elements, while still allowing for a comfortable travel experience. We may then recommend a river cruise or a train ride, although the latter is very uncommon due to sanitation and hygiene issues on most trains in Asia.

We are fanatical about staying on top of all changes in travel infrastructure, which is always ongoing in the fast developing Indian subcontinent and in Southeast Asia. New faster highways are constantly becoming available and new nonstop flights and other options are introduced every month. We evaluate these new options, and if they can enhance our guests' experience, we make changes to our tours accordingly.

## International Travel to Asia

Upon request, we can assist our guests in securing international flights. All our U.S. based Specialists travel to The Indian subcontinent and Southeast Asia on an ongoing basis, and have been doing so for the last 14 years. We have a wealth of knowledge about the best airlines, planes, routings, and values, and we will be happy to share this with our guests and make recommendations to assist you in your international flight decision making.

# INDIA

Spectacular Colors – Archaeological Wonders  
Ancient Cultures – Incredible Cuisines  
Himalayas – Thar Desert – Tropical Coast

In 2004 Easy Tours started with tours for India and Nepal. Since then we have matured into the premier U.S. based upscale travel facilitator for the Indian subcontinent, with 10 of our own offices there. Our unmatched expertise and strong local presence allows us to offer our guests choices no other company can match.

From private travel for a single explorer, to weddings and incentives for more than a thousand, Easy Tours can handle it all with ease! We offer a large selection of small group tours, and an even larger menu of private travel options. Guests selecting our Luxury Level of hotels can also ask a dedicated U.S. based India expert to design a tour to their preferences.

“ Thanks to you and your staff, our trip was seamless. I have been in the **travel business for 30+ years and have not encountered such superior service.** You should all be proud of that, it did not go unnoticed. Every detail of our trip was meticulously handled, and the staff we encountered, just phenomenal! Our facilitator was always in place, smiling and helpful....popping up like a Genie whenever we needed him! Our driver was so sweet and careful and such a great driver. The two of them never left our sides in public, and we felt so protected and safe with them. Very good companions - we miss them. ”

“ Just back from a wonderful trip to India with my wife. We wanted to find an agent who knew how things worked in this country known to be chaotic. We found just that in Easy Tours. From the outset, the team proved helpful, informative and easy to work with. The accommodations that Easy Tours booked for us all were outstanding. The guides at all locations were professional and of the highest standards. All in all this was exactly what we were hoping for in a first time visit to this exotic locale and Easy Tours did a great job for us. I recommend them highly and without reservation. ”

“ Jim & I were referred to your company and had been told to expect great service and hotels. Easy Tours still managed to surprise & impress us. The guides and other people that assisted us all exceeded our expectations and the hotels were among the best that we have seen anywhere in the world. We have traveled abroad at least twice a year for more than a decade and have never had an experience that matches what you put together. What can I say except ‘thank you’ & prepare for more referrals! ”

## WILD LIFE

Tigers - Elephants - Leopards  
The Last Asiatic Lions on Earth - Crocodiles  
One Horned Rhinoceros – Bird Watchers Paradise

We often have people tell us that they have done game safaris in Africa and so they don't feel the need to do so in India. Please be aware that viewing wildlife in Africa is nothing like a safari in India. Africa is sub-Saharan while India is the thick, lush jungle that Kipling wrote about, and the experiences are completely different.

We also hear from people that they have read or heard that big cat sightings are very uncommon on safaris in India. We have tracked our guest's sighting for over a dozen years, and well over 80% of our guests get tiger sightings on their tour in any tiger park that we offer, with many getting multiple sightings. Please bear in mind that those that don't get sightings are the most vociferous, on the web, and otherwise.

India has over 500 National Parks and sanctuaries where its wildlife is protected. Only a few of these parks offer the best opportunities for sightings of the more elusive cats such as tigers and leopards. Our selection of wildlife tours takes our guests through these parks.

Two of our wildlife itineraries are presented in this brochure. Please contact us or visit our website for the complete menu.

“ In November 2016 I spent three weeks in the National Parks of India. I have focused, specialized goals and needs as a freelance international wildlife and nature photographer. Easy Tours listened very carefully to my special needs for a hard-working and efficient trip and I was free to photograph undistracted by other jabbering tourists, boat or vehicle rockers, etc.; I spent long hours with quality professional guides and no distractions, got the photos I needed and wasted no time in clichéd urban tourist spots. Placing my trust in Easy Tours saved me immense hassle. This group listens, customizes, then delivers!”

“ I want to thank you and Easy Tours for the wonderful trip. Selecting Bandhavgarh National Park in central India allowed me to photograph nilgai antelope and chinkara gazelles as well as many carnivores such as tiger, leopard, sloth bear, jackle, Bengal fox, ruddy mongoose and palm civet. Bandhavgarh also had rhesus macaques and langur monkeys. Crossing to Kaziranga National Park in Assam India, I was able to photograph many large mammals such as Indian rhino, Asian elephant, wild water buffalo, and wild hog. The parks were rich in bird life and I photographed three species of hornbill in India. All the parks had a variety of flowers, butterflies and natural beauty to discover. It felt so good to have a smiling Easy Tours guide waiting for me after each flight with my name on their sign. Thank you and your crew for sharing your beautiful country with me. ”

# Culinary Tours

The Indian cuisine served by 98% of Indian restaurants in North America actually belongs to just one region of India. It is the most popular cuisine in North India, but there are many more culinary styles that are unique and delectable found in other parts of North and South India.

Local cuisines were developed over many millennia due to a variety of reasons, most of which are being emulated in the world's finest establishments today. Sourcing locally for freshness was key, as was the geographical location. Grains, vegetables, legumes/beans and spices that are used in the high altitude regions of the Himalaya's actually assist you in coping with the lower oxygen found there. In North India there are seasonal dishes that help the body to deal with the extreme heat of summer or winters cold. India's coastal regions have unique seafood and other options that have evolved over centuries of input from various European and Far Eastern influences.

No restaurant outside of India can match the flavors that are produced in India's best kitchens, which, unlike North America, are sometimes located in the hotels we use on our tours. This is evidenced by the fact that the well-off locals frequent the restaurants at these hotels on a regular basis.

Our Culinary Tours will include a mix of famous local restaurants specializing in local cuisine at each destination, and opportunities to dine at your hotel, where you may choose to enjoy great western fare if you feel like it.

“ Just wanted to drop you a quick note to say that our India tour was AMAZING ! I'm so glad David recommended the culinary tour.... I think I got a head start on my winter weight gain but BOY WAS IT WORTH IT ! James has never really liked Indian food, but this trip has turned him around ! Everything was so good and well prepared and what an array of different flavors !!! Our guides were so much fun and the driver, Kejav.... God bless him for doing that job ! (haha) We will be calling you soon to plan our next trip and thanks for everything ! ”

# LUXURY TRAINS IN INDIA

Easy Tours offers our guests the ability to reserve a seamless experience when they book a luxury train journey with us. You are received at the international airport and provided lodging, guidance and transportation before and after your train journey, depending on your individual preferences. Many of our guests also choose to reserve pre and/or post land tours.

Up until the nation's independence in 1947, India's royalty traveled on trains whose compartments had been retrofitted with extremely luxurious accoutrements befitting the passengers' status.

The ultra-luxury train compartments are now parked in various places, including some in Delhi's fascinating Rail Museum. These inspired Indian Railways and Rajasthan Tourism to come up with the idea of a luxury tourism train that visited some of North India's premier attractions.

The Palace on Wheels was inaugurated in 1982, and soon won many international awards and worldwide recognition. Other luxury trains have been launched in the past few decades, providing rail enthusiasts more options in covering different attractions and regions of India. Our favorites, besides the Palace on Wheels, are the Maharajas' Express and the Deccan Odyssey.

# Honeymoons in India

The history of romance goes back many millennia in India. It is glorified in our mythology and in the incredible sculptures on many of our UNESCO World Heritage Sites. India has more romantic destinations than anywhere else on the planet, including the world's most amazing monument dedicated to love, the Taj Mahal.

You can select spectacular 18th and 19th century palaces and spend your honeymoon as an emperor and empress, or why not luxuriate at coastal and island resorts on the Indian Ocean and the Bay of Bengal? Is a honeymoon without a blessing at a thousand year old temple really a honeymoon?

From the Himalayas to the Thar Desert to the dense jungles to the tropical coasts of the south, India offers a choice of honeymoon themes for every taste. Boutique luxury lodging is available in all these locations, and as anyone who has traveled to India will tell you, the service that you will receive is unmatched.

# NEPAL

Awe-Inspiring Himalayas – Great Treks  
Unsullied Rivers – Adventure Activities  
Unique Culture – Ancient Monuments

Because Nepal is the ultimate adventure destination, its amazing cultural and historical attractions sometimes do not receive the recognition that they deserve. Nepal's history was heavily influenced by settlers from India and Tibet, and it goes back many millennia. There are amazing Hindu and Buddhist monuments spread throughout the Kathmandu valley and elsewhere.

Only in Nepal do you find Hindu and Buddhist houses of worship located right next to each other, with Buddhist monks praying in the temple, and Hindu priests paying their respects in the pagoda.

Nepal offers incredible trekking opportunities ranging from moderate to extreme; what they all have in common is amazing scenery and warm locals. White water rafting on gushing streams fed by Himalayan glaciers is a delight in the summer, with varying levels of rapids available.

Besides great trekking, the Pokhara region, a magical amalgamation of mountains and lakes, offers paragliding, extreme zip lining, bungee jumping, ultra-light flights, mountain biking and a lot more. Nepal's National Parks offer great rewards to a wildlife enthusiast, which include the Bengal tiger, one horned rhino, and a plethora of Himalayan and migratory avian populations. Guests selecting our Luxury Level of hotels can also ask a dedicated U.S. based Nepal expert to design a tour to their preferences.

“Excellent tour from start to finish. All hotels were great and some were 5 star and quite amazing (one could easily adjust to them). The guides were very friendly, knowledgeable and enthusiastic. Two adjustments I would make in retrospect and those are a minimum 2 nights visit in each hotel and stopping the tour at 3:30 each afternoon just to rest and soak up the culture. Thanks for a trip of a life time.”

“ First we would like to say that ALL of the guides we had were very good. Easy Tours must have a very good selection process in place. In Nepal we couldn't have had a better person to guide us than our guide. He always knew just when to give us some time to observe things on our own, seemed to know everyone in Kathmandu, and I'm convinced he gave us a 5 day tour in 2 without appearing rushed. We saw it all. Lastly we would like to compliment our U.S. based specialist for everything he did for us to make our visit so memorable and enjoyable. His special attention and customized segments are what really made this a memorable experience! ”

# BHUTAN

Magical Himalayan Buddhist Kingdom  
Spectacular Scenery – Pristine Nature  
Unique Culture – Amazing Monuments

Bhutan is the last magical kingdom on our planet. The nation's stated goal is to have a high GNP index; they measure gross national happiness, not GDP. A unique form of Buddhism is practiced here, and the ancient dzongs (Monastic Fortresses) are an architectural and cultural delight.

The government takes pains to make sure that Bhutan retains its unique culture and architecture. It is a country without traffic lights and the only controlled intersection, manned by a policewoman or man, is where the two major streets intersect in Thimphu's main bazaar district.

Thimphu is the capital and has a treasure trove of attractions for a visitor, while Paro, lying just over an hour's drive away, has Bhutan's only international airport. Paro is also home to, along with many other charms, the awe-inspiring Tiger's Nest Monastery.

We offer multiple private tours in Bhutan, including tours that include neighboring countries like India and Nepal. Guests can also ask for a tour that is customized to their preferences.

“What A Marvelous Tour. Pierce and Chandni are stellar performers in the game of travel planning. This vacation exceeded all of our expectations and we have relatively high standards. The guides were fountains of knowledge. We got only two “I don’t know” s during the entire trip. The questions were inane anyway. Two Thumbs Up for Easy Tours.”

“ Our third and shortest trip with Easy Tours! Magical Bhutan was exactly that, and your company keeps on excelling at what you do. We were greeted by our guide and our driver at Paro airport and spent the next 8 days in their delightful companionship. As with all Easy Tours Guides, in India, Nepal, Thailand, Cambodia, they were so passionate about their country. We have been to over 40 countries and Bhutan is different from anything we have ever experienced. I am so glad that I found your company on the internet, and talked Bill into using you for India five years ago. Best travel company in the world! ”

# SRI LANKA

Historic Monuments – Colorful Ancient Culture  
Tropical Landscapes – Spectacular Beaches  
Amazing Wildlife Parks – Preserved Seaports

Although this island nation is only a quarter of the size of Colorado, it offers a plethora of attractions for all types of travelers. Located close to the equator, the landscape is incredibly lush, and its jungles are full of exotic wildlife.

Spectacular beaches and resorts dot its coasts and historic seaports like Galle have a distinct European feel and culture. There are ancient monuments going back many millennia and a bounty of natural wonders everywhere you turn. Captivating waterfalls abound around the highlands of Nuwara Eliya, where some of the best tea in the world is cultivated.

We offer two options for private tours in Sri Lanka. The first one does many of the highlights, while the other covers most of Sri Lanka's major attractions. Guests traveling at our Luxury Level can also ask for a tour that is customized to their preferences. A tour of Sri Lanka can easily be added to any other nation in South and Southeast Asia.

“ Our family has booked with Easy Tours the past two years for Thailand and Sri Lanka and both times our experience with them has been nothing short of the best. They continually work hard to create an experience that is tailored to exactly what we desire. They are friendly, understanding, extremely prompt, and are always great with communication. More importantly, the reason these trips are so special is because they are based around creating life long memories with my family. Easy Tours has made my life simple, taking care of the tedious tasks associated with travel, allowing me to enjoy my time with those who matter most. It is for this reason that I trust Easy Tours and book with them for every family vacation. ”

“ I have now had time to think about the amazing holiday that you put together for us and the staff you provided to take care of us. They were all outstanding, each with a different personality. The most important for us were the drivers as they were with us all day, every day. In Sri Lanka Mahendrawas a driver and Guide of the highest standard, not only that, if there was a secret way into a temple or monument he knew it and all the people around. So, what is there to say about Easy Tours, nothing but superb, superb and superb, They do what they say they will do, the staff are speedy and efficient and helpful and patient and really great. And one more thing; GREAT value for your money. ”

# SOUTHEAST ASIA

Unique Landscapes – Gracious Cultures  
Stunning Beaches – Exotic Flora and Fauna  
Well Preserved Ruins of Ancient Civilizations

Southeast Asia summed up in one word – Exotic. This word accurately describes many aspects of the region; the geography, the beaches, flora, wildlife, the food, and the ancient customs still honored by its modern day inhabitants.

There are few places on Earth that are blessed with a more beautiful landscape than southeast Asia. Gaze over its fertile landscapes and rivers, waterfalls, lush jungles, primitively beautiful beaches or a simple rice field shadowed by a towering mountain, and your soul cannot help but feel cleansed and calmed.

Its ruins of past civilizations are evidence of its importance in mankind's history. Southeast Asia was home to many of the ancient world's most influential cultures, from the Cham to the Siamese, and of course the great Khmer people. The Khmers are correctly known as the Romans of Asia, only partly because of the incredible infrastructure they constructed over their vast kingdom. Southeast Asia is a bounty of archaeological treasures, almost always found in stunning natural settings.

The large cities in the region are always exciting and distinctly more energetic and stirring than most cities in the west, usually featuring a delightful mix of modern buildings with old world markets and lifestyles. As if all this wasn't reason enough to visit, the people of southeast Asia are the real treat; colorful, always smiling, always friendly, and perpetually interesting. Guests selecting our Luxury Level of hotels can also ask a dedicated U.S. based Southeast Asia expert to design a tour to their preferences.

“ We felt totally pampered during our tour with Easy Tours in Thailand. The hotels were gorgeous – the best of the best. Our guides were personable and knowledgeable and couldn't have been better. We appreciated how they catered to our every request and how flexible they were. We felt cared for as they met us off the plane and we're there for us until we walked through security 10 days later for our trip home. Our drivers negotiated the crazy traffic with obvious skill. We felt safe. I honestly cannot think of anything that would have made our trip nicer. Everyone should enjoy a tour like this at least once in a lifetime! ”

“ I have nothing but wonderful feedback on our experience with Easy Tours. I traveled with three other girls to Thailand recently. None of us had ever been to Southeast Asia before - and all four of us fell absolutely in love with the country! The recommendations that Easy Tours made (resorts, landmarks, tours) were all amazing. Our main contact talked us through several options prior to our trip and helped cater to our every want/need. I was very impressed with our guide as well. In addition to being super friendly and informative, he did a wonderful job looking after us four girls. The entire experience was enjoyable and efficient. ”

“ We made it back home from our Thailand trip in one piece and we're already ready to go back. Guides - excellent, hotels - all great, Thailand - incredible. We weren't sure if the kids would be too worn out with all of the activities, but they stayed excited and engaged the whole time. # Honeymoons in Thailand

When planning their honeymoon, the first conversation between brides and grooms to-be is usually along the lines of, "Beach, beautiful mountains, or exotic cultural discovery?" Thailand makes answering this question simple; it has all of the above!

For the couple looking for a variety of experiences on their honeymoon, Thailand offers everything one could hope for: Tantalizing landscapes, romantic hotels, a wide array of sightseeing and fun activities, incredible photo opportunities, and some of the world's best beaches.

All of these things are easily done, logistically speaking, and are no more than a 2 hour flight away from each other. Imagine spending your first few days in the exciting and distinctly Asian metropolis of Bangkok, and then moving on to the peaceful green mountainous landscape of northern Thailand to spend some time with nature and elephants. Finish up with a few days relaxing in an idyllic beach destination, and you have the perfect honeymoon.

Easy Tours' honeymoon guests enjoy special perks along the way, and our U.S. staff will use their intimate knowledge of available romantic experiences to plan the perfect honeymoon.

# VIETNAM

Unique Culture and Street Food Scene  
Vibrant Cities – Beautiful Beaches  
Amazing Seascapes – Historical Monuments

Vietnam can be a joy for all travelers, regardless of their preferences. The north offers the captivating city of Hanoi and the awe-inspiring scenery of Halong Bay. In Central Vietnam lies the Imperial City of Hue, a laid back city with a treasure trove of monuments. Just south of Hue is HoiAn, a UNESCO World Heritage Site for being the best preserved ancient seaport in Southeast Asia.

Ho Chi Minh City (Saigon) in the south is the proto-typical Southeast Asian metropolis, and a little further south brings you to the lush Mekong Delta and the riparian lifestyles of its natives. World class beaches dot the central and southern coastline, and there are sun-drenched tropical islands for those seeking solitude.

We offer multiple small group and private tours in Vietnam, including tours that include neighboring countries like Thailand, Cambodia, Myanmar and Laos. Guests traveling at our Luxury Level can also ask for a tour that is customized to their preferences.

Archaeological Wonders – Amazing Pagodas  
Ancient Culture – Unique form of Buddhism  
A Nation Emerging into the 21st Century

If there is one destination that you should visit soon, it is Myanmar. Since the lifting of sanctions and the opening of tourism a few years ago, the nation is growing rapidly. Yangon (Rangoon) appears to have doubled in size in just the last 5 years!

There are many must see places in Myanmar, but nothing matches Bagan for history, architecture, and archaeology enthusiasts, and its landscape is otherworldly. Inle Lake is both a visual delight and a socio-cultural experience that is unmatched. The Imperial City of Mandalay is a treasure trove of attractions not found elsewhere.

We offer small group and private tours in Myanmar, including tours that include neighboring countries like Thailand, Cambodia, Vietnam and Laos. Myanmar can easily be combined with India. Guests traveling at our Luxury Level can also ask for a tour that is customized to their preferences.

# CAMBODIA

Awe-inspiring Ancient Monuments  
Agrarian Lifestyles – Friendly Locals  
Tropical Countryside

Although present day Cambodians appear to live in a quiet agrarian society, their ancestors were some of the most powerful and advanced people of their time. This land was home to the prolific and highly influential Khmer civilization, and the archaeological treasures they left behind are vast.

Spread across the entire country is the well preserved infrastructure of these ancient builders; roads, temples, bridges, and dams are all clear evidence of a highly developed civilization.

The pinnacle of these achievements can be found in the vast ancient city of Angkor Thom near modern day Siem Reap. The most famous of these is the iconic temple complex of Angkor Wat. The scale of the temples and monuments is simply staggering, as in its day, Angkor Thom was twice the size of Manhattan. The ruins here, just like many of other ancient achievements found in Cambodia, are unrivalled in Southeast Asia.

The simple, warm and friendly people, and the incredibly lush and beautiful tropical landscape, both add to the allure of Cambodia. Guests selecting our Luxury Level of hotels can also ask a dedicated U.S. based Cambodia expert to design a tour to their preferences.

“ Everyone we worked with at Easy Tours was exceptional in their knowledge and it made all the difference in the world on our trip. It is a very customer service focused company and they took care of everything for us in Thailand and Cambodia. Having our own personal guide who was local to the area meant we didn't worry about where we were going or how to get there. There was no language barrier issue which was huge. We did, saw and learned things we would NEVER have been able to do if we were on our own. ”

# LAOS

Jaw Dropping Scenery – Amazing Mekong  
Unique Buddhist Culture - Fewer tourists  
Great Activities – Culinary Experiences

Laos is sometimes forgotten by visitors to Southeast Asia, probably because it has no beaches or large cities. This is a mistake, for it is one of the most serene, unspoiled and beautiful countries on Earth, and the peaceful yet colorful Buddhist culture is alone worth a visit.

Its landscape is the stuff of dreams; characterized by karst mountains that stand tall over green valleys and rice fields, and a glistening network of winding rivers. Other natural wonders like waterfalls and caves are common place with in its idyllic ecosystem.

Laos offers a wide variety of fun and relaxing activities for its visitors, from elephant experiences, to boat trips, to swimming in natural pools created by waterfalls. Laos also features many small ethnic villages throughout its countryside, where the inhabitants' lifestyles take us back to a simpler time.

The city of Luang Prabang is an incredibly laid-back and picturesque town that tempts visitors to stay for a while and enjoy the ambience and culture, as well as the natural beauty of the surroundings countryside. Laos serves as a great microcosm of Southeast Asian land and culture, and should be a part of any trip to the region. Gorgeous Kwang Si Falls

Rural Village Walks

“ Just a quick note to thank you for all your and your company’s work in setting up our trip to Laos and Myanmar. Amazing countries. We had great weather. The sites and sights were astonishing. The people are a great treasure. All in all I loved it all. Actually sorry not to have gone on to Inle Lake etc but time is always a challenge. I did appreciate all your efforts on my behalf earlier when i was concerned about not being able to go. Glad that I was able to make the trip as planned. ”

## A word from our founder

At the turn of the century, some American friends and I took a tour of South Asia with a leading luxury travel company. My friends trusted me to arrange everything as I am originally from India, and had already traveled extensively in the region, including most of Southeast Asia.

The itinerary was rushed, unimaginative, and obviously dated. It left no time for cultural immersion. It had very early morning starts, and absurdly long drives, as well as an unsanitary train journey.

I was so disappointed by the experience that I started working on a new business plan soon afterwards.

Easy Tours was designed and created to be the exact opposite of that unpleasant tour. I named it Easy Tours because my goal was to offer the very best options for all explorers by offering a diverse selection of itineraries, and by providing the most passionate local experts at each destination.

I hope you enjoy your travels with us as much as I enjoy my frequent journeys through South and Southeast Asia.

My colleagues and I cannot wait to welcome you to our homelands!
